INSTALLATION

According to the customer demands, the kitchen equipment projected by our project team, is presented to the customer as a preliminary.

After the necessary revisions are made, the production and mechanical installations to the customer for the application project. The kitchen area prepared according to the project is checked by our project team and the kitchen equipment which has been manufactured will be shipped.

The equipment, assembled by our experienced installation team in accordance with the project and mechanically assembled, tested and delivered to the customer in working condition.

ADJUSTABLE MODULER COOKING DESIGN

There are so many easy-to-buy combinations that the hardest thing will be choosing your favourite.

Multifunctional Cooker

Offers maximum flexibility use as fry top, braising pan or boiling pan.

Çok Yönlü kullanım, kızartma, kaynatma, pişirme tavası.

Electric Boiling Top

Cast iron hot plates with safety thermostat.

Su geçirmez, emniyet termostatlı dökme demir pleytler.

Chip Scuttle

an excellent appliance for maintaining your fried foods at the ideal temperature for serving.

Kızarmış yiyecekleri servis için istenilen ısıda koruma.

Gas Boiling Top

Exclusive highly efficient system. High thickness cast iron grids.

Yüksek verimli brülörlü. Kalın dökme demir ızgaralar.

Ovens

Possibility of adding standard ovens in all series.

Tüm serilere standart fırın ekleme imkanı.

Hygenic Modules Connection System

Model has side to allow flush fitting joints between units, eliminating gaps and possible dirt traps.

Üniteleri, aynı hizada vidalama özelliği sayesinde olası boşluk ve kiri önler.

Gas Solid Top

Cooking surface with differentiated temperature zones.

Farklı sıcaklık yüzeyleri.

Cooking Surface

Different surface finishes, smooth, grooved.

Farklı pişirme yüzeyleri, düz/oluklu.

Vapor Grill Top

Water reservoir under cast cooking surface, vaporization is provided during cooking process and dehydration of food being cooked is prevented.

Izgara döküm altında su tankı ile buharlı pişirme.

Kayalar Mutfak Range with oven saves flavors and moistureof the food thanks to its steam program

Kayalar Mutfak Convection Oven is Designed for **Perfect Cooking!**

Kayalar Mutfak Fryer delivers crispy perfection and **maximum efficiency** in every fry!

Kayalar Mutfak Boiling pans provide **perfect results** with high capacity and precise temperature control!

Buffet Systems offer eye-catching presentation with elegant design and durable structure!

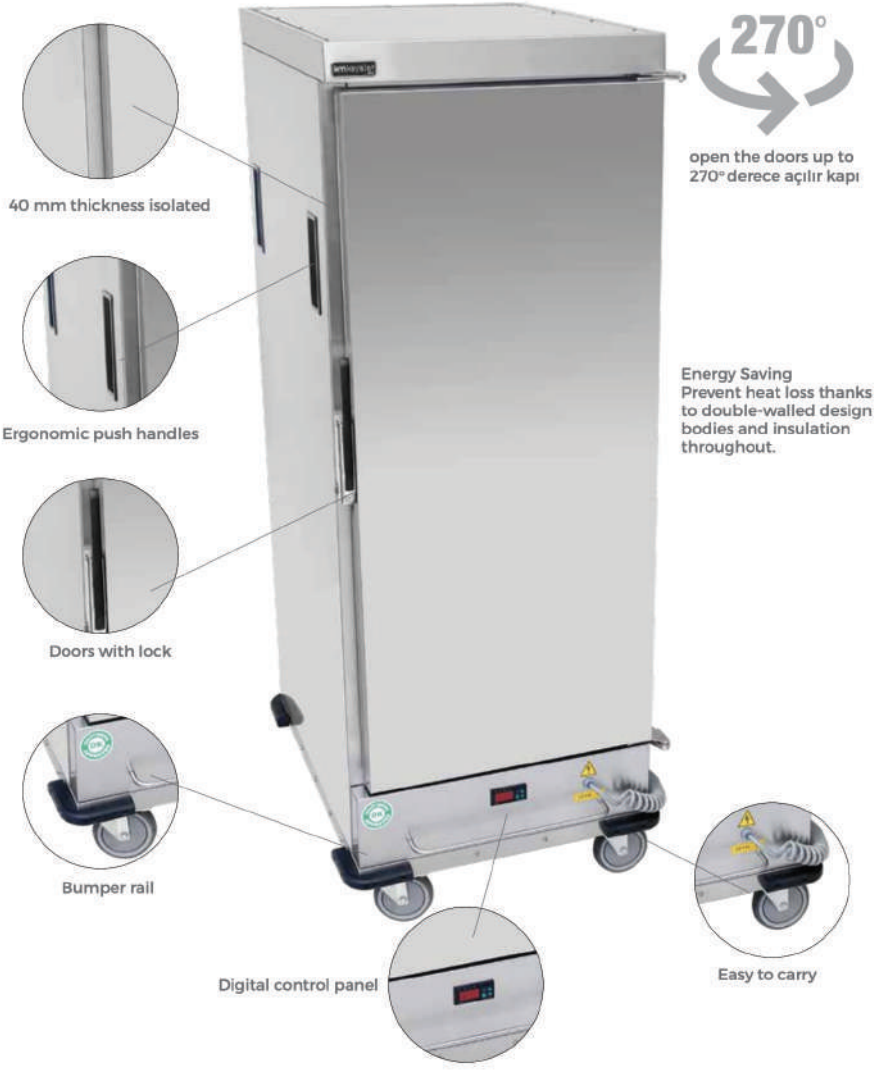

Self-Service Line offers **fast and practical serving** with its streamlined design.

Hot or Cold with **Kayalar Mutfak Banquet Trolleys**, everything arrives as fresh as if it came directly from the kitchen.

Kayalar Mutfak Cold Rooms, one of the most difficult situations for businesses is to store food at the appropriate temperature constantly and to ensure that it remains usable while maintaining its freshness. The most suitable storage equipment for large capacity restaurants and restaurants are cold room systems.

Main Kitchens

We design efficient, ergonomic, and hygienic cooking and production areas with equipment tailored to the capacity and workflow of each facility.

Cooking and Service Areas

Open Buffets

We manufacture stylish, durable, and concept-driven open buffet systems that enhance the presentation and functionality of dining spaces.

Self-Service Lines

Storage and Cold Rooms

Preparation Area

We create hygienic and ergonomic preparation zones for meat, fish, vegetables, and other food groups in full compliance with HACCP standards.

Marine Line

We design and manufacture marine-grade professional kitchens for ships and offshore platforms, using durable, corrosion-resistant materials engineered for challenging sea conditions.
